

2019 Clemson Football Parking

If you ordered 2019 football season tickets their location is available to view online at clemsontigers.com by logging into your IPTAY/ticket account. If you are a donor at the \$400/Orange level and above and you ordered at least 2 renewable full season tickets then your parking location is also available to view by logging into your account. Once you are logged in follow the links to the 2019 football season and your order history. The information shown includes letters and numbers that are not relevant to your actual assignment and are simply the way our assignment software program accounts for all types of tickets and parking passes. Please refer to the examples below and the list of all parking lot abbreviations when reviewing your assignments for this season.

Example 1:

My order history says that my parking assignment is P:STI:3:70,70 . The P indicates that the following is your parking assignment. Since STI is an area lot then the 1:20,20 can be ignored. Your assignment for this season, in this example, is the STI area lot.

Example 2:

My order history says that my parking assignment is P:1R:3:321,321 . Again the P indicates that this is your parking assignment. The 1R is the abbreviation for Lot 1; lower intramural field below Fike Fieldhouse. You can ignore the next number “3” (row in the assignment software) and then 321 which is your actual space assignment in this example.

There are several new parking locations, new names and abbreviations and changes from being an area lot to a numbered parking lot. Please refer to the table below for specifics on your assignment. Parking lot maps and space layouts are available under the parking information tab at www.clemsontigers.com/iptay using the interactive parking map.

<u>Assignment Abbreviation</u>	<u>Parking Location Name</u>	<u>Parking Type</u>
